- Experience in preparing business cases, as well as experience in generating customized reports through the presentation of business data.
- Experience in IT transformation and its impact on global business and infrastructure for short, medium and long-term integration.
- Ability to synthesize relevant information and generate business intelligence and data in general in order to project trends for better decision making.
- Skill in Data Science, Machine Learning and general Business Intelligence tools.
- Skill in Service Now framework.
- Knowledge and experience in User Experience (UX), Design Thinking, Management and performance monitoring of applications such as AppDynamics (Cisco) and Dynatrace.
- Experience in IT Governance, dashboards, IT service management, incident tool management.
- Advanced knowledge in designing databases, spreadsheets or related results, in addition to knowing how to manage high-quality business intelligence information flows for users.
- Experience in transition and transformation, as well as hybrid, private and public cloud workloads.
- Experience in IaaS, PaaS, XaaS, Hadoop (Cloudera), DB2, SQL, ODM, Big Integrate, Big Quality, ISAM, API connect, Network Concept (SD-WAN, LAN and WAN).
- Security expertise and IBM Watson solutions for machine learning.
- Mobile virtualization development for desktops and applications that helps customers migrate from personal computers (PCs) in a distributed environment to a centralized, virtualized environment.
- Experience in ITSM tools such as Maximo, Service Now (ITSM and ITOM), ARS Remedy.
- Experience as a Certified IT Architect – IBM.
- Knowledge of business and management principles involved in strategic planning, resource allocation, human resources modeling, leadership techniques, production methods and coordination of people and resources.

- Excellent technical communication skills, knowing how to listen, speak, understand, write and express oneself well, as well as a great capacity for empathy in interpersonal communication, transmission and communication of complex information.

PROFESSIONAL BACKGROUND

Company: Kyndryl Brazil Services

Duration: December 01, 2025 - to the present

Location: Global - Rua Tutóia, 1157 - 14º - Vila Mariana – São Paulo/SP – ZIP Code: 04007-900, Brazil.

Position: Global Cybersecurity Tools Leader

Website: <https://www.kyndryl.com/>

Main responsibilities:

- In this function, I have acted as a SIEM security architect, integrator, and content developer.
- I am responsible for supporting all pre-sales as well as leading deployment and integrations of our security service offerings for all new customers.
- I was also entrusted with the following activities:
 - In the process of developing a service offering around SIEM content development and quarterly SIEM security health checks.
 - Participated in reviewing and providing feedback to RFP's.
 - Architected and deployed SIEM, Network and endpoint product offerings across multiple different organizations ranging from telecommunications, manufacturing, accounting, government, and financial services.
 - Provided pre-sales presentations and demonstrations of our current SIEM, Network and EDR/XDR product offerings.
 - Provided peer review of current SIEM deployments.
- Platform: XSIAM, Tenable IO, Vision One, PaloAlto, CSPM, CWPP, CIEM, CNAPP platform

Company: Kyndryl Brazil Services

Duration: August 01, 2024 – December 01, 2025

Location: Global - Rua Tutóia, 1157 - 14º - Vila Mariana – São Paulo/SP – ZIP Code: 04007-900, Brazil.

Position: Global DNSO Leader for Peru, Ecuador, Colombia and Brazil

Website: <https://www.kyndryl.com/>

Main responsibilities:

- Managing the Discovery New Service Opportunities Program that brings business and opportunities to Kyndryl in Strategic Markets.
- The Squad Global is responsible for regions: Cyprus, Czech Republic, Hungary, Greece, Poland, Belgium, Luxembourg, Denmark, Norway, Sweden, Switzerland, Austria, Brazil, Peru, Colombia, Ecuador, Netherlands, Saudi Arabia and Israel.
- Support non incentive employees with different ways to create new opportunities.
- Transform delivery team mindset: Embrace innovation and drive sales growth.
- Ensure a better technical cooperation and alignment, bridging any gap between Sales and Delivery.
- Analysis of customer contracts from the base accounts seeking white space (non-contracted scope).
- DNSO management system and governance, monitor and accelerate progress of leads.
- Organize awareness sessions with stakeholders.
- Promote onboarding sessions for new services or features.
- Bringing insights by technology / platform to help practitioners identify similar opportunities occurred in other regions from strategic markets.

Company: Kyndryl Brazil Services

Duration: December 01, 2021 – July 30, 2024

Location: Rua Tutóia, 1157 - 14º - Vila Mariana – São Paulo/SP – ZIP Code: 04007-900, Brazil.

Position: Technical Solutions Manager - IBM Certified IT Architect at Kyndryl

Website: <https://www.kyndryl.com/>

Main responsibilities:

- Responsible for the technical solution of complex strategic outsourcing.
- Clear understanding of customer needs and expectations.
- Local and global multidisciplinary team leadership.
- Focus on technical solution development, adding Kyndryl's competitive advantages and competitive cost.
- Responsible for defining and forging a new path forward, a path that most often leads to advances, accomplishments that boost the business to new heights of success and growth.
- Responsible for leading more qualified professionals to outline business opportunities and complex projects above US\$10M, which involve existing technologies or some type of functionality that needs to be developed.
- Responsible for Engagement Hand of with the Transition, Transformation and Delivery team
- Responsible for great relationship with CIOs, Deputy Presidents, integration and certification with the “West Solution Innovation Hub” team.

Main results:

- Successful leadership of teams and technical team of twelve architects in business opportunities.
- Satisfactory results from the adhesion of new customers to the Kyndryl base and/or the acquisition of new accounts.
- Highly capable composition and leadership that generated a successful results team that analyzes competitiveness and proposes technical and financial alternatives for the opportunities that are on the priority list for signing, taking what was essentially a low-chance opportunity to work and transforming it into a business for company.
- Several Opportunities of Cloud migration.
- Successful leadership of global projects such as Caramuru, Saint Gobain, CRESOL, Whirpool, TIM, Heineken, BRF, FEMSA, Gerdau, AmBev, Dow, Embratel, Telefônica and Nextel.

Company: IBM

Duration: October 01, 2018 – November 30, 2021

Location: Rua Tutóia, 1157 - 12º - Vila Mariana – São Paulo/SP – ZIP Code: 04007-900, Brazil.

Position: Technical Solutions Manager - IBM Certified IT Architect at IBM

Website: <https://www.ibm.com/>

Main responsibilities:

- Responsible for the technical solution of complex strategic outsourcing.
- Clear understanding of customer needs and expectations.
- Local and global multidisciplinary team leadership.
- Focus on technical solution development, adding IBM's competitive advantages and competitive cost.

- Responsible for defining and forging a new path forward, a path that most often leads to advances, accomplishments that boost the business to new heights of success and growth.
- Responsible for leading more qualified professionals to outline business opportunities and complex projects above US\$10M, which involve existing technologies or some type of functionality that needs to be developed.
- Responsible for Engagement Hand of with the Transition, Transformation and Delivery team
- Responsible for great relationship with CIOs, Deputy Presidents, integration and certification with the “West Solution Innovation Hub” team.

Main results:

- Successful leadership of teams and technical team of twelve architects in business opportunities.
- Satisfactory results from the adhesion of new customers to the IBM base and/or the acquisition of new accounts.
- Highly capable composition and leadership that generated a successful results team that analyzes competitiveness and proposes technical and financial alternatives for the opportunities that are on the priority list for signing, taking what was essentially a low-chance opportunity to work and transforming it into a business for company.
- He stood out in a pioneering use in a broad enterprise environment an "agile" methodology, originally developed for Vale do Silício startups, but which he adapted for his own goals at IBM and then he trained his team in execution.
- Several Opportunities of Cloud migration.
- Successful leadership of global projects such as Caramuru, Saint Gobain, CRESOL, Whirpool, TIM, Heineken, BRF, FEMSA, Gerdau, AmBev, Dow, Embratel, Telefônica and Nextel.

Company: IBM

Duration: May 02, 2016 – September 30, 2018

Location: Rua Tutóia, 1157 - 12º - Vila Mariana – São Paulo/SP – ZIP Code: 04007-900, Brazil.

Position: Solutions Manager - IBM Certified IT Architect at IBM

Main responsibilities:

- Responsible for the Strategic Outsourcing Technical Solution.
- Clear mapping of customer needs and expectations.
- Local multidisciplinary team leadership.
- Focus on technical solution development, adding IBM's competitive advantages and competitive cost.
- Integration of the teams involved in the opportunity
- Responsible for Engagement Hand of with the Transition, Transformation and Delivery team

Main results:

- Successfully team leadership with up to 10 people.
- He was invited to work as a “Solution Manager” and cross-lead the team of architects in business opportunities of up to US\$10M.
- Successful low/medium complexity solutions that involved several “skills” such as Network, Workplace Services, Hybrid Cloud (on premises, IBM Cloud, AWS, Azure and GCP - Google Cloud Platform), Hardware and Software Reseller, use of artificial intelligence, “machine learning”, “Open software and security applications.
- Subscription to important projects such as Eternit, CPFL and TV GLOBO

- He was invited to join the team that works at “Complex Deals” after working on several business opportunities, signing many projects and mainly gaining experience.

Company: IBM

Duration: January 01, 2010 - May 01, 2016

Location: Rua Tutóia, 1157 - 12º - Vila Mariana – São Paulo/SP – ZIP Code: 04007-900, Brazil.

Position: IBM Certified IT Architect at IBM

Main responsibilities:

- Responsible for technical solutions for Hybrid IT (on-premises and Cloud environments).
- Responsible for Design Workplace technical solutions.
- Provision of technical qualification for respective solutions.
- Responsible for creating and preparing technical presentations.
- Responsible for evaluating cost metrics.
- To prepare T&Cs (terms and conditions).

Main results:

- Successful results in support, IT Governance methodologies, managed services and Transition and Transformation of customers' IT environments, obtained with the time of experience in the delivery of technology services.
- High complexity transformation of customer environments, whether Data Center, Cloud, Systems, Platform or End User Experience.
- Sales team highly trained and capable of carrying out winning visits to customers, made through presentations of solutions "capabilities", workshops, technical defense of solutions and successful participation in RFP (Request for Proposal) and RFS (Request for Services).
- Several certifications obtained, and entry into “The Open Group Certified”, a renowned group formed by companies in the computer industry to establish open standards for computing infrastructure; certification that made possible to him to be invited to be a Mentor of new architects, as well as to integrate into IBM's internal technical community (TLC - Technology Leadership Council Brazil), career plan meetings with new collaborators and other programs that Human Resources invited him to participate.

Company: IBM

Duration: January 1, 2008 to December 31, 2009

Location: Rua Tutóia, 1157 - 12º - Vila Mariana – São Paulo/SP – ZIP Code: 04007-900, Brazil.

Position: Service Delivery Manager

Main responsibilities:

- Responsible for the integration and management of Mobility Services lines.
- To analyze trends for decision making.
- To negotiate and approve changes to the customer's operating environment process.
- To work in partnership with the operational area of the company and manage all processes within the customer.

- To monitor crisis processes, seeking synergy and resolving the crisis in the shortest possible time and with the least impact on customers.
- To verify that contract items are being applied and implemented.
- Responsible for the interface between the customer and the areas involved for clarification and alignment of actions.
- To evaluate and identify opportunities for improvement in customer operations or business opportunities.
- To maintain and document the defined processes, ensuring the knowledge and understanding of all involved.
- To perform cost management, including annual plan negotiations.
- Responsible for the Document of Understanding between the service lines and the Executive Project.
- To ensure customer satisfaction and maintain the continuity of the relationship.
- To measure service delivery standards and ensure the implementation of the contracted service level.
- To ensure service quality and improve delivery processes.
- To identify cost reduction alternatives continuously with their improvement in Customer Service and delivery.
- Responsible for delivering the contracted service levels.
- To understand customer needs and new business opportunities.
- To participate in RFS (Request for Service) responses.
- To monitor and ensure compliance with internal and external audit requirements.

Main results:

- Due to the good results obtained, he was invited to work as a Technical Solution Architect (Technical Solution Architect) in an area that breathes technological innovation in bringing solutions to its customers.
- Successful operation of technologies involving IBM or partner products. Among these technologies, he has actively worked with ICP, IKS, Kubernetes, OpenShift, OpenStack, Ceph, CloudForms, RHEV and RHEL.
- For infrastructure, positive results were obtained through the use of IBM Cloud (IaaS, PaaS, XaaS), AWS, Azure and GCP.
- Significant improvement in handling times and incident resolution (SLA)
- Implementation of weekly cadence to address improvement plan
- Governance Implementation
- Significant improvement in the customer's NSI (which is why I was allocated to this customer)

Company: IBM

Duration: January 01, 2007 - December 31, 2007

Location: Rua Tutóia, 1157 - 12º - Vila Mariana – São Paulo/SP – ZIP Code: 04007-900, Brazil.

Position: Field Technical Support

Main responsibilities:

- On-site support on TV Globo customer.
- Support for specific applications that the Authors used.
- Support for VIP users.
- General focal point for any mobile device used by the customer.

- Responsible for the interaction between the Service Desk, Field Services and the Data Center Command Center.

Main results:

- Successful residential service for VIP users.
- Refresh equipment used by key users in each area.
- Creation of a specific support model for Journalism, Commercial, Sports and Entertainment.
- Implementation of specific KPIs for the backlog action plan.
- Implementation of the IMAC process in journalism, thus avoiding loss of Notebooks.
- Significant improvement in the customer's NSI (which is why I was allocated to this customer)

Company: IBM

Duration: May 11, 2002 - December 31, 2006

Location: Rodovia Jornalista Francisco Aguirre Proença SP101, Km 09 – No Number - Chácaras Assay, SP, ZIP Code: 13186-900, Brazil.

Position: Subject Matter Specialist

Main responsibilities:

- Responsible for the transition: due diligence, documentation, training, knowledge transfer.
- Technical and Operational Support for 39 agents as Remote Technical Support.
- Application support (Oracle, SAP, Totvs, JDE, etc.).
- Responsible for internal applications.
- Responsible for the billing printer.
- Responsible for VIP users.
- Ad administrator for common and privileged users.
- Responsible for customers with more than 50 applications.
- Responsible for critical changes.
- Responsible for 24x7 operations.
- Responsible for remote control, new packages and mobile support.

Main results:

- Extended contract due to excellent results: as a special mission due to the large computing environment, there was a transfer to the city of Hortolândia to carry out the transition of the remote support services of the Primesys – Telefonica customer. The contract was expected to last 12 months, however the customer extended it for another 12 months and at the end, made a proposal to hire me. IBM made a counter-proposal and I ended up deciding to stay with IBM.
- Due to the previously successful work, there was an invitation to lead the transition and remain in the city of Hortolândia project. IBM signed an even larger contract with Embratel (TELMEX Group).
- Exceptional organization of 139 Mainframe applications.
- Successful user administration for over 25.000 employees.
- Permanent participation in Change committees.
- Permanent participation in the monthly technical meeting with the customer.

Company: IBM

Duration: May 14, 2001 - May 10, 2002

Location: Rua Tutóia, 1157 - 12º - Vila Mariana – São Paulo/SP – ZIP Code: 04007-900, Brazil.

Position: Remote Technical Support at IBM

Main responsibilities:

- Responsible for mainframe support (CICS, IMS).
- Responsible for supporting the end users' Windows environment
- Responsible for supporting EDI (Electronic Data Integration) of IBM customers
- Responsible for the email service (Lotus Notes and Outlook)
- Responsible for IBM customer data link service.

Main results:

- Provision of high-quality services in terms of support for technology users, both remotely and in person.
- Exceptional performance as a focal point for some customers, being the spokesperson within IBM for new technologies or even day-to-day problems.
- Development of new KPIs to improve the analysis of answered calls.
- High-performance training for new colleagues

Company: Cummins Brasil S/A

Duration: August 10, 1998 – May 11, 2001

Location: Rua Jati, 310 – Cumbica – Guarulhos/SP, ZIP Code: 07180-900, Brazil.

Position: Systems Analyst Intern

Website: <https://www.cummins.com/>

Main responsibilities:

- Tests execution and quality in the Oracle environment
- IBM Netfinity Server Administration
- Emails management in the Lotus Notes tool
- Payslips printing management (about 5.000 monthly) generated on the Mainframe 3270
- Support for Engineering's Pro-Engineer environment for Product Development
- General Engineering CAD environment support
- Engine Track environment support. Software developed in Visual Basic to control the motor assembly steps.
- SQL-based Engine Track database tables management
- Cost survey for annual budget (budget plan)
- Development in General
- Member of the committee to evaluate the choice of the new ERP for Cummins Brazil: SAP and Oracle

Main results:

- Successful execution of tests on Oracle database tables before going to production environment.
- Development and implementation of a script to generate payslips by department.
- Reorganization of the tape library,
- Execution of refresh of all desktops and laptops: used equipment was prepared, donated and installed at the Victor Civita Foundation for the children cared for by this institution.

- Implementation of a new environment in Citrix to improve user's access performance.
- Full development in HTML and Dreamweaver of Cummins Brasil Intranet aligned with Cummins USA.
- Implementation of the internal store on the Cummins Intranet for employees and partners to purchase promotional materials.
- Replacement of e-mail communication between all engineering departments by the development carried out within the Intranet organized by the schedule from the prototyping phase to the manufacture of the part.

Company: Home Tech do Brasil Comercial Ltda – Main Dealer Kwikset (a Black & Decker company)

Duration: September 2, 1996 - August 10, 1998

Location: Rua Itamarati, 125 – Pacaembu – São Paulo/SP, ZIP Code: 01234-030, Brazil.

Position: Systems Analyst

Website: <https://www.kwikset.com/>

Main responsibilities:

- Development of programs to improve controls
- To design and develop applications
- To propose plans and IT systems in the company.
- To analyze costs, technical, economic and financial feasibility for the implementation of automation processes.
- To develop generic programs such as word processors, spreadsheets and multimedia programs and control the flow of information in the company through the creation of applications that facilitate this process.

Main results:

- Development and implementation in visual basic language of programs for inventory, billing and finance control.
- Development and implementation in visual basic program language to control inputs in the assembly of locks.
- To transform the excel spreadsheets used by the treasury to the financial module
- To standardize the registration of all imported items

ACADEMIC BACKGROUND

Course: Computer Science

Institution: Universidade Cruzeiro do Sul.

Course Term: completed in 2001.

Location: Avenida Dr. Ussiel Cirilo, 225 – São Miguel Paulista, ZIP Code: 08060-070 – São Paulo/SP, Brazil.

Website: <https://www.cruzeirosul.edu.br/>

Course: Civil Engineer

Institution: Centro Universitario ENIAC.

Course Term: completed in 2023.

Location: Rua Força Pública, 89 - Centro, Guarulhos - SP, 07012-030, Brasil

Website: <https://www.eniac.edu.br/>

Course: Management and Strategy in Business

Institution: Faculdade de Informática e Administração Paulista

Course Term: completed in 2005.

Location: Avenida Lins de Vasconcelos, 1.222 – Aclimação, ZIP Code: 01538-001 – São Paulo/SP, Brazil.

Website: <https://www.fiap.com.br>

Course: Data Processing

Institution: Faculdade de Tecnologia de São Paulo

Course Term: completed in 1997.

Location: Avenida Tiradentes, 615 – Bom Retiro, ZIP Code: 01124-060 – São Paulo/SP, Brazil.

Website: <http://www.fatecsp.br/>

CERTIFICATES AND COURSES

Certificate: FinOps Certified Practitioner

Course Term: April 10, 2024. Expires on April 10, 2026

Location: FinOps Foundation

Certificate: Selling & Winning for Partners: Data Engineering on Databricks

Title: Data Engineering

Course Term: Nov 11, 2025. Expires on Nov 11, 2026

Location: Databricks

Code: 166290475

Certificate: Lakeflow PreSales for Partners on Databricks

Title: Lakeflow PreSales

Course Term: Nov 12, 2025. Expires on Nov 12, 2026

Location: Databricks

Code: 166273434

Certificate: Partner Training - Selling & Winning for Partners: Data Warehousing on Databricks

Title: Selling & Winning for Partners: Data Warehousing

Course Term: Nov 06, 2025. Expires on Nov 06, 2026

Location: Databricks

Code: 165857697

Certificate: Partner Training - EDW-ETL Migration to the Data Intelligence Platform on Databricks

Title: EDW-ETL Migration to the Data Intelligence Platform

Course Term: Oct 26, 2025. Expires on Oct 26, 2027

Location: Databricks

Code: 16255886

Certificate: Advantages of Expanding EDW with Data Intelligence on Databricks

Title: Advantages of Expanding EDW with Data Intelligence

Course Term: Oct 21, 2025. Expires on Oct 21, 2027

Location: Databricks

Code: 163882772

Certificate: Advantages of Data Intelligence & Interoperability with SAP on Databricks

Title: Advantages of Data Intelligence & Interoperability with SAP

Course Term: Oct 22, 2025. Expires on Oct 22, 2027

Location: Databricks

Code: 163899287

Certificate: Selling & Winning for Partners: Gen AI on Databricks

Title: **Selling & Winning for Partners: Gen AI**

Course Term: Oct 31, 2025. Expires on Oct 31, 2026

Location: Databricks

Code: 164790537

Certificate: Partner Training - Advantages of Gen AI & LLM on Databricks

Title: Generative AI & LLM Fundamentals

Course Term: Jun 26, 2024. Expires on Jun 26, 2026

Location: Databricks

Code: 107186850

Certificate: Partner Training - Gen AI & LLM on Databricks

Title: Generative AI Fundamentals

Course Term: Jun 25, 2024. Expires on Jun 25, 2026

Location: Databricks

Code: 107080549

Certificate: Databricks Partner Training – Generative AI Fundamentals

Title: Generative AI Fundamentals

Course Term: Apr30, 2024. Expires on Apr 30, 2026

Location: Databricks

Code: 101952624

Certificate: Databricks Partner Training – Advantages of Data & AI Governance

Title: Advantages of Data & AI Governance

Course Term: Apr 24, 2024. Expires on Apr 24, 2026

Location: Databricks

Code: 102591972

Certificate: Databricks Partner Training – Azure Databricks Platform Architect

Title: Azure Databricks Platform Architect

Course Term: May 01, 2024. Expires on May 01, 2026

Location: Databricks
Code: 102300628

Certificate: Databricks Partner Training – Advantages of the Lakehouse
Title: Advantages of the Lakehouse
Course Term: Apr 18, 2024. Expires on Apr 18, 2026
Location: Databricks
Code: 102591778

Certificate: Databricks Partner Training – Cloud Data Warehouse Migration
Title: Cloud Data Warehouse Migration
Course Term: Apr 16, 2024. Expires on Apr 16, 2026
Location: Databricks
Code: 102704306

Certificate: Databricks Partner Training – Data & AI Governance with Unity Catalog
Title: Data & AI Governance with Unity Catalog
Course Term: Apr 12, 2024. Expires on Apr 12, 2026
Location: Databricks
Code: 102551367

Certificate: AWS Cloud Practitioner
Title: AWS Certified Cloud Practitioner
Course Term: January 14, 2022. Expires on January 14, 2026
Location: AWS

Certificate: Consult Profession - Foundation
Title: Consult Profession
Course Term: February 01, 2024.

AWARDS, HONORS AND RECOGNITIONS
--

1) Congratulations

By Claudio Einicker Garrido on Mar 30, 2024

Description: This award is to recognize your successful journey and transformation capacity and also to thank you for the ongoing partnership and results in FY 2024.

2) Keep up The Amazing Work.

By Deborah Fagundes (September 16, 2020).

Description: Ricardo and Lenilson, I want to thank you for your work and commitment to GT10 deals, and especially for your personal dedication in recent work to respond to TIM's RFP. I know that you are balancing different plates with mastery, and I don't want to fail to recognize you for that. Thanks!!! Let's move forward together for the next phases of this deal.

3) BluePoints at the IBM Recognition Center.

Manager's Choice Award for demonstrating the following IBM Practice: Unite to get it done now.

Description: Ricardo, before we spoke earlier today, I was already very inclined to give you these Bluepoints for the BVS deal, in our conversation I was sure that my choice couldn't be better! For your attention, involvement, attitude and tireless determination, receive this award, along with my THANK YOU SO MUCH, for yet another challenging deal. I hope delivery treats this deal with the same care you did during the engagement phase, if that happens, we will be successful in the ongoing process. Hugs!

4) IBM Manager's Choice Award.

By Claudio Einicker Garrido (September 27, 2018).

Description: Congratulations on your effort to overcome your limits to face the challenges without giving up! Thanks for the partnership!

5) Recognition by Fleury AS (2020).

Description: IBM Services help Fleury infuse more agility and flexibility into its operations to support its current and future growth, with a new and modernized service delivery model.

6) Recognition by Cresol (2020).

Description: IBM Services proposes a hybrid cloud solution and cloud journey roadmap to help Cresol Confederation renew its IT delivery model and build a scalable, open source, future-ready platform.

7) Drive Differentiated Solutions recognition with the BVS case (07/10/2019).

Description: Congratulations to you and the whole team for the highlight in the second semester of 2019 with the 2019 case (by Tonny Martins, IBM Brazil General Manager).

8) Service Excellence Award.

By Alexandre Faria Lobão (June 22, 2016).

Description: Congratulations, you got compliments!
